

**RESEARCH REPORTS OF
NATIONAL INSTITUTE OF TECHNOLOGY (KOSEN),
NAGAOKA COLLEGE VOL.59
JANUARY 2024**

CONTENTS

Paper

- Density-based topology optimization for maximally stiff structure problem using Two-phase materials ... 1
Takahiko KURAHASHI, Sakura ICHIKAWA, Masayuki KISHIDA, Mizuki IKARASHI and Tetsuro IYAMA
- Shape Optimization of an object in an incompressible viscous fluid for drag minimization (Considerations for introducing a shape selection process using deep reinforcement learning) ... 6
Yudai SUGIYAMA, Takahiko KURAHASHI and Toshihiko ETO
- Optimization of Texture Design Parameters for Friction Reduction Based on Design of Experiments and Finite Element Fluid Analysis ... 12
Doan Quang THUAN, Takahiko KURAHASHI, Hiroaki ARATA and Tetsuro IYAMA
- Comparing the topology optimization results of the stiffest structure using two types of topological derivatives ... 20
Takahiko KURAHASHI, Manaya NAKAZAWA, Masayuki KISHIDA, Kousuke SHIMIZU and Tetsuro IYAMA

Note

- Practice of text mining by students ... 26
Shinsuke HOSHII

Themes of Graduation Study 2022 36

Thesis of Special Study at Advanced Engineering Courses 2022 43
